## Worn Out In Mind and Body

Your child is quick to observe disturbances in your mental attitude or physical condition. And when he asks: "What's the matter, Daddy?" there's a tone of solemn anxiety in his little voice. The depression stamped upon you reflects intensely upon him because of his profound solicitude. He at once drops his playthings and rushes to your side, but his happy smile has disappeared and his bdoyant spirits are gone-replaced by a countenance of worry and a bearing of hopelesaness.

You ove it to the happiness and welfers of your family to keep trin in body and keen in intellect. You are the sin and the inspiration of their lives. Dark, threatsning circuits boveg over their heads the instant you show signs or oring out of sorts or under the matther. Dark impartit their future by neglecting your health.
